

PRECISION MEETS EMOTION

PINTA stands for the balance between design, precision, and purpose. We believe every great interior begins with a surface thoughtfully created to shape how spaces are experienced, built, and remembered.

Driven by design intelligence and manufacturing excellence, we create materials that combine refined aesthetics with dependable performance. Every décor, texture, and finish is developed with intent — bringing originality, consistency, and depth to modern interiors.

At the heart of PINTA is a commitment to the people who bring spaces to life. Architects, designers, manufacturers, and craftsmen inspire everything we do. Through advanced production, responsible practices, and a deep understanding of materials, we aim to deliver surfaces that support creativity with confidence, precision, and lasting quality.

EVERY SURFACE TELLS A STORY

PINTA is a UAE-based brand creating design-led surface solutions for modern interiors, where advanced engineering meets refined material thinking. Proudly **Made in UAE**, PINTA operates from a **50,000 sqm** facility in Dubai's **National Industries Park**, combining innovative décor development, advanced textures, and high-quality production to create panels with sophistication, consistency, and performance. With a strong focus on design, reliable supply, and manufacturing excellence, we aim to become a trusted and preferred name for premium panel solutions.

THE ART OF SURFACE DESIGN

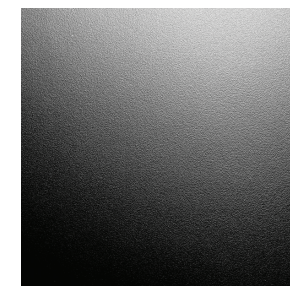

FABRIC

A woven-inspired texture with subtle cross-lines, creating gentle rhythm and depth while maintaining a soft, refined and understated surface.

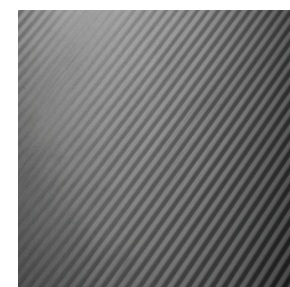

LEATHER

Fine-grain texture inspired by natural leather, offering soft irregularity, depth, and a premium, grounded feel across modern interior surfaces.

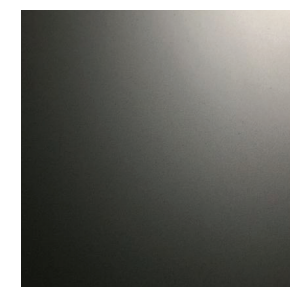

PEARL

A fine, uniform grain texture delivering a clean, consistent surface with subtle depth and a balanced, modern and durable appearance.

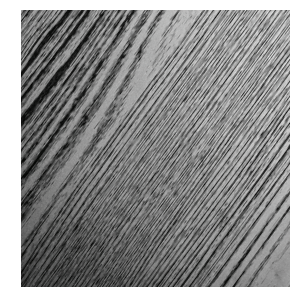

STRIPE

Linear texture with fine lines introducing movement and structure, enhanced by a matte finish that adds depth through simplicity and rhythm.

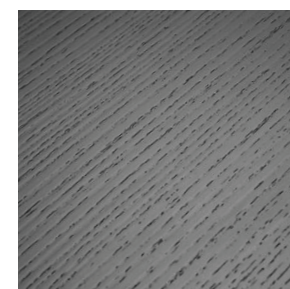

SUPERMATT

Ultra-smooth, low-reflective texture with a soft-touch feel, offering a clean, minimal surface that highlights colour with clarity and precision.

WOOD GRAIN

Natural timber-inspired texture with organic grains and tonal variation, bringing warmth, authenticity, and depth to both classic and modern interiors.

FREZE

A softer wood-grain interpretation with subtle patterns, offering controlled texture and natural depth for calm, minimal and contemporary spaces.

PINTA's collection translates nature and material honesty into timeless modern surfaces. Our five signature textures are designed in tandem with each décor. The result is a surface that does more than match a moodboard. It deepens a space, adds quietness to architecture, warmth to furniture, and a sense of intent to every joinery detail.

SOLID DECORS

Whites and warm neutrals form the quiet foundation of the Solids range. In our supermatt finish, these tones feel powdery and soft to the touch - no glare, no fingerprint sheen, even across large continuous surfaces and tall full-height doors.

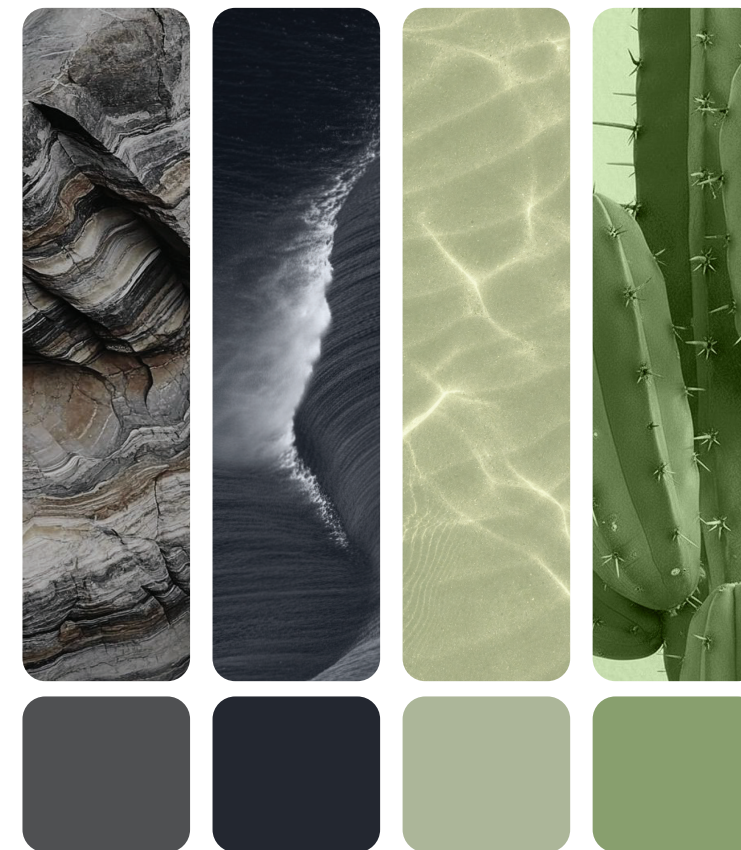

P-2107- T1

P-2106 - T1

P-2108 - T1

P-2115 - T1

The supermatt finish adds a powdery tactile feel and a sophisticated visual depth, making these panels ideal for contemporary spaces that value minimalism and precision.

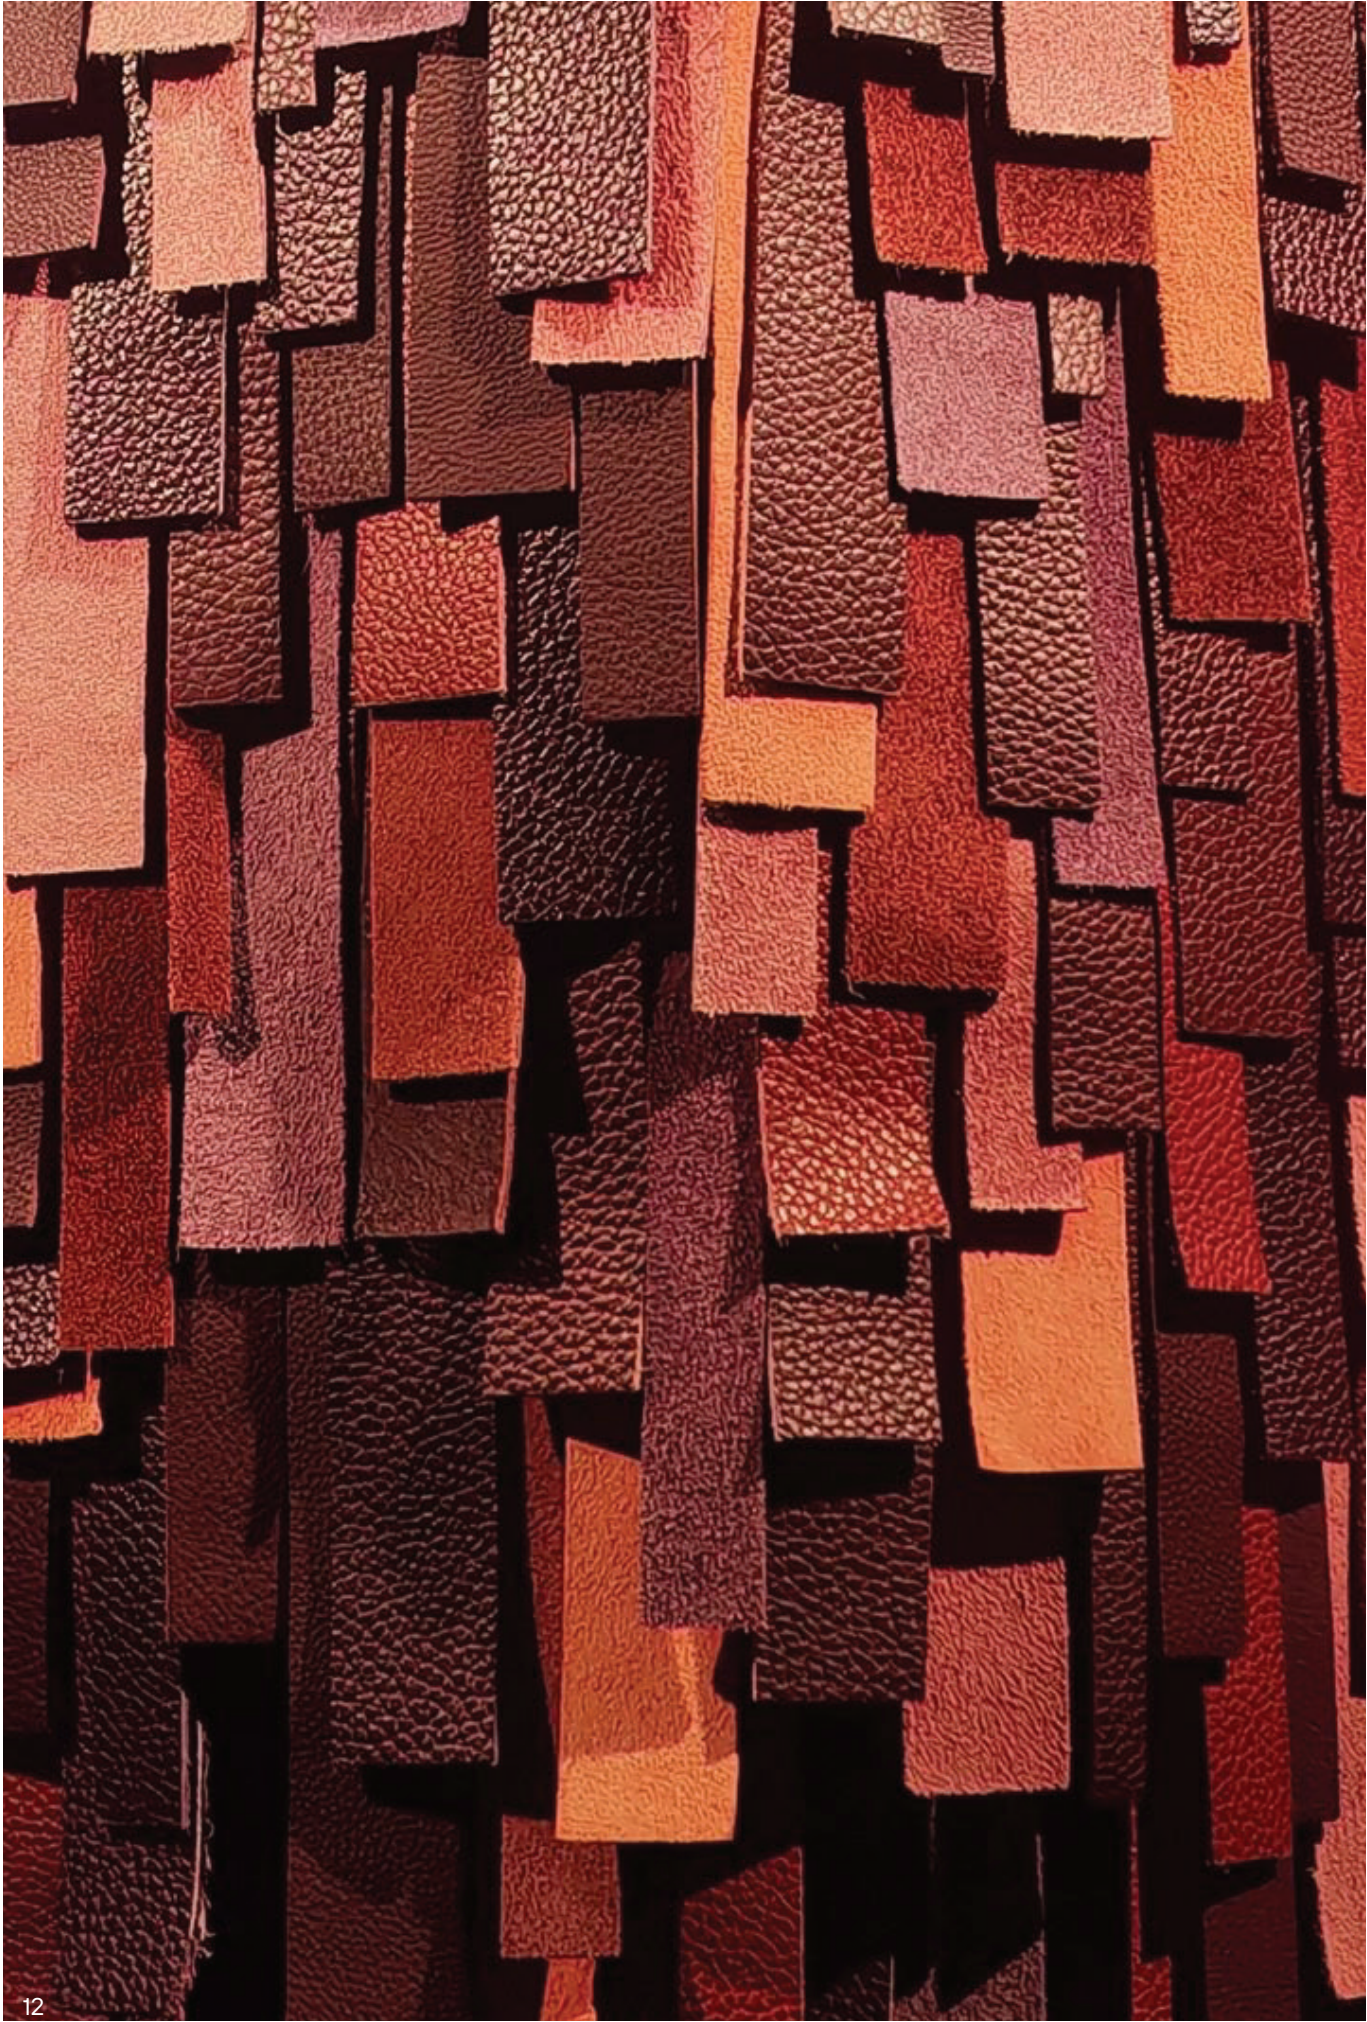

P-2111- T1

P-2110 - T1

P-2112 - T1

P-2113 - T1

The supermatt finish on darker tones is where the texture earns its name: light is absorbed rather than reflected, the surface reads almost velvet to the eye, and fingerprints stay quietly hidden through everyday handling.

MARBLE DECORS

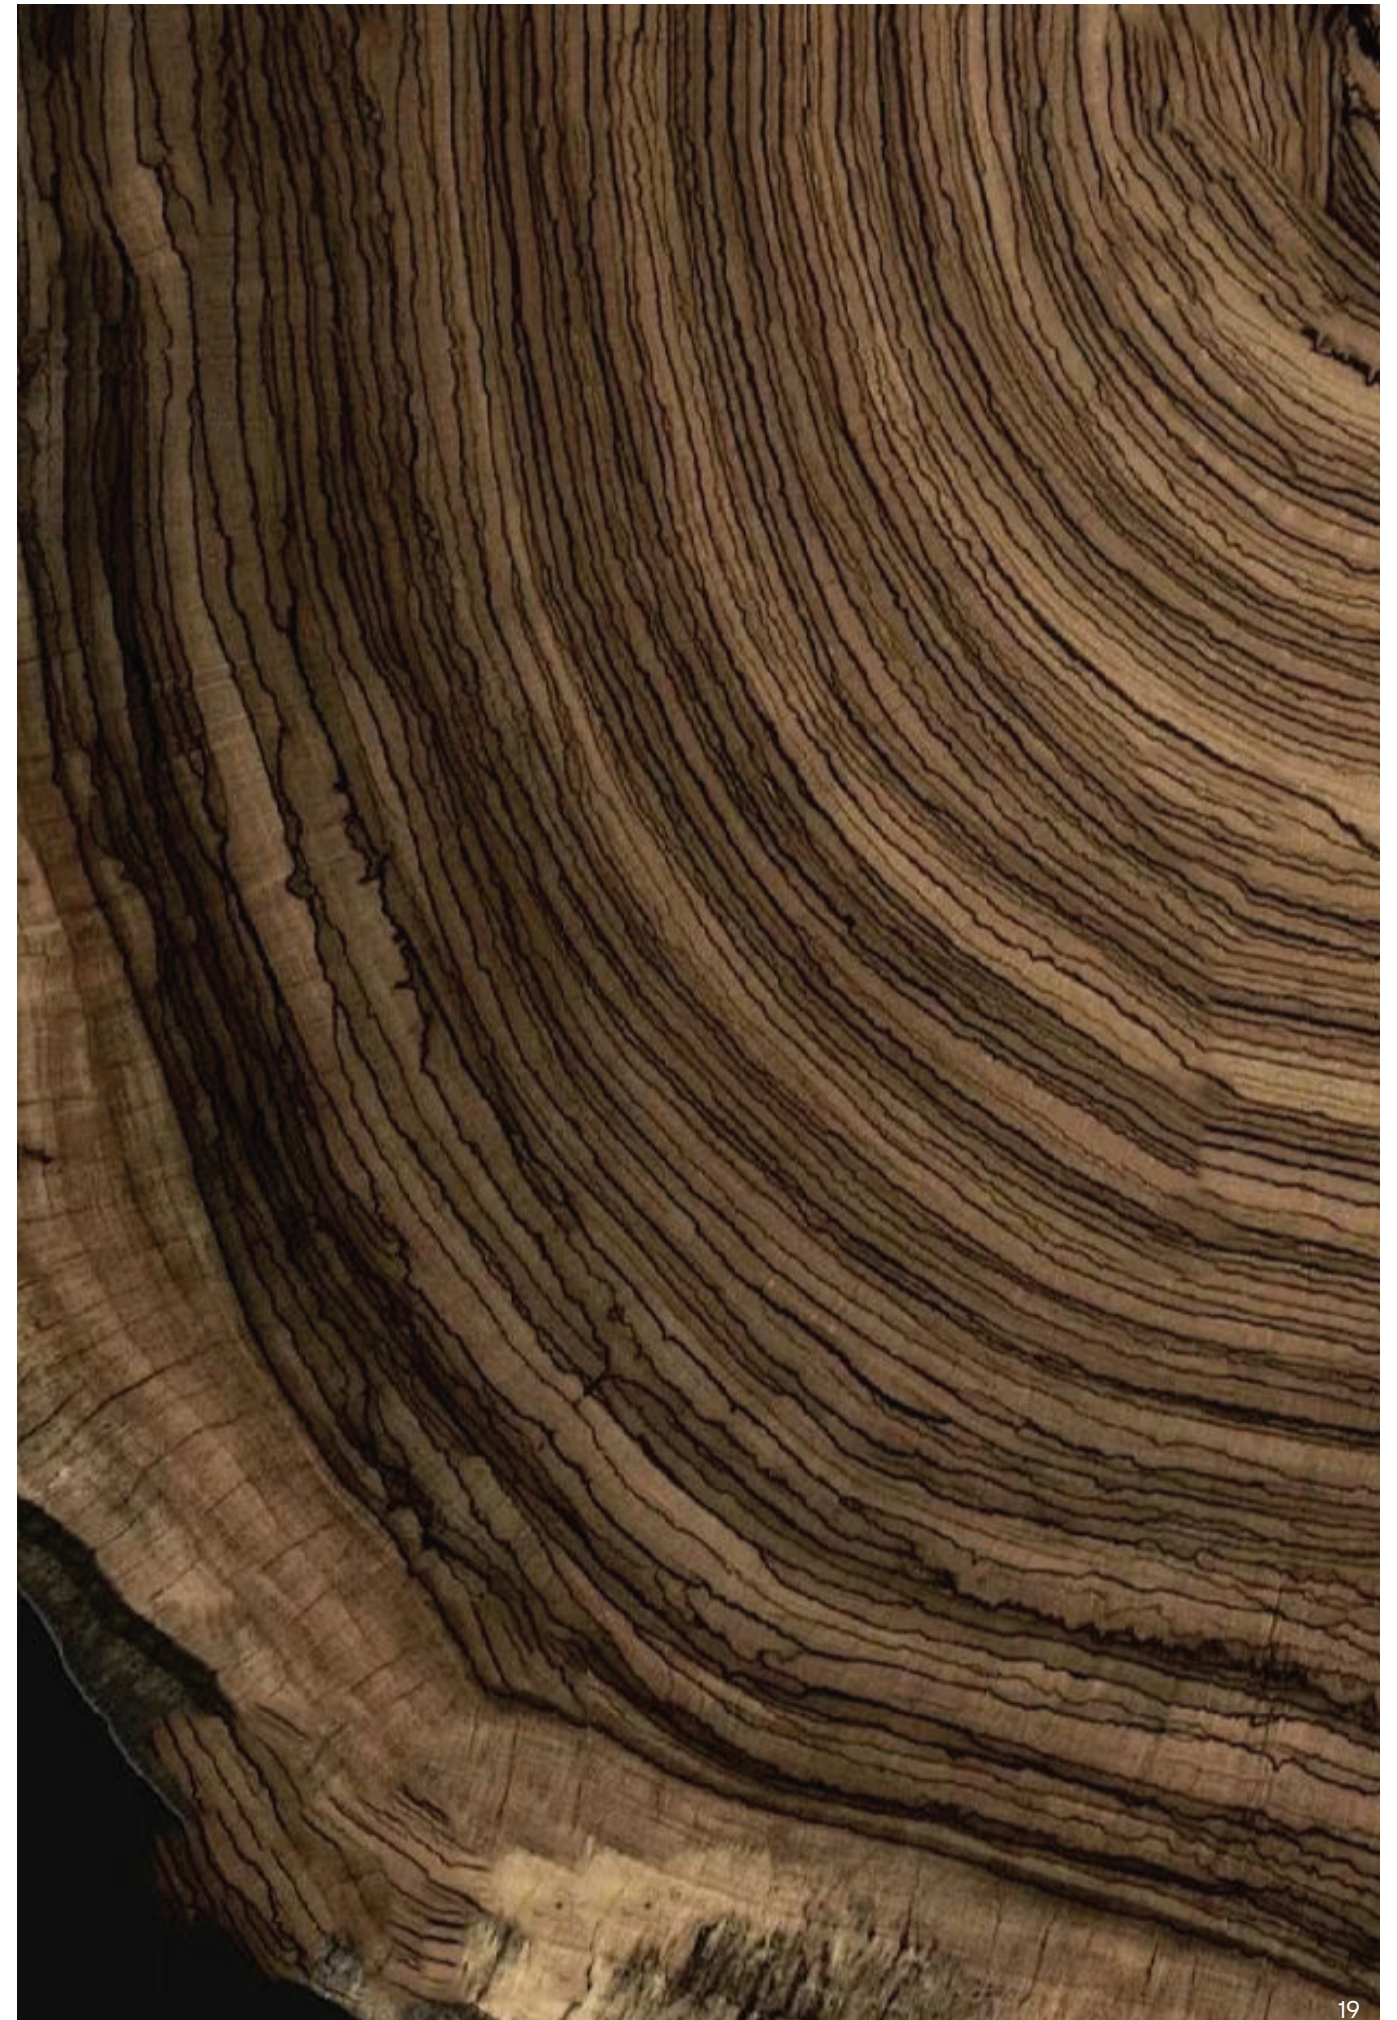

FABRIC DECORS

Each décor is designed to add warmth without overwhelming the space. Developed with a matte finish, these surfaces offer a balanced tactile feel and a calm, consistent appearance - ideal for applications that seek a quiet, sophisticated texture with a contemporary edge.

WOOD DECORS

P-2416- T5

P-2417 - T6

P-2418 - T7

P-2415 - T8

With a balanced matte finish and a natural tactile feel, the collection is designed to suit both classic and contemporary interiors, offering warmth, familiarity, and refined visual texture without ever drifting into pastiche.

P-2422- T5

P-2421 - T5

The mid-tone wood décors are the workhorses of contemporary residential and hospitality work. Warm enough to feel welcoming. Neutral enough to carry an entire scheme without competing with art, fabric, or stone.

STRIPE DECORS

P-2413 - T6

P-2414 - T6

P-2412 - T6

Mid-tone Stripe décors work best in commercial and hospitality interiors. The linear texture introduces a sense of order and considered detail to large surfaces, helping reception walls, lift lobbies, corridor casework, and meeting room frontages feel resolved rather than merely clad.

P-2419 - T6

P-2420 - T6

The Stripe texture reads almost as a tonal wash, a gentle directional signal that the eye picks up at close range without being shouted at from across a room. The lines hold structure without imposing a pattern.

FREZE DECORS

P-2402- T7 P-2403 - T7 P-2401 - T7 P-2409 - T7

The natural Freze tones read as the most honest interpretation of timber in the entire collection. The subtle grain gives the surface a believable depth without the figure or knots of stronger wood décors, making it a confident choice for full-room schemes where consistency matters more than character.

P-2406- T7 P-2404 - T7 P-2407 - T7 P-2408 - T7

Warm Freze décors bring a hospitality warmth to interior schemes without leaning rustic, traditional, or themed. The softened grain pattern keeps these décors firmly contemporary, suited equally to refined residential kitchens and to boutique hotel suites where a sense of welcome is essential.

P-2405 - T7

P-2410 - T7

P-2411 - T7

In pale tones, the Freze grain almost dissolves into a soft, organic surface. These décors are specified often by designers who want the suggestion of wood without the commitment of strong grain: the warmth, without the weight.
